## Foreword

This publication has been developed from OECD development databases. These databases are available via [www.oecd.org/dac/stats](http://www.oecd.org/dac/stats) and provide more detailed information than that presented in this publication. The data can be accessed by country and year and it also include data for additional sectors not included in this publication.

This publication presents tables and charts about activities funded by Official Development Assistance (ODA) to developing countries for the year 2004 and reported to the DAC (Development Assistance Committee). The latest available data relate to 2004, except charts from the page 8.

The publication comprises six regional reports on the World, Africa, America, Asia, Europe and Oceania. Each contains information on commitments and disbursements for 2004, and thus presents as complete a picture as possible of aid statistics for each region.

In addition, each year, the publication 'CRS: Aid Activities' is dedicated to a specific theme. The 2006 special edition is on *Basic Social Services*.

These data have been provided by DAC members, multilateral institutions and other donors. Complete records from 1973 onwards are available on the yearly *International Development Statistics* CD-ROM, and on the DAC site: [www.oecd.org/dac/stats/crs](http://www.oecd.org/dac/stats/crs).

When long time series are presented in the report the amounts are expressed in 2003 USD prices in order to make them comparable. In all other cases current USD prices were adopted.

Unless otherwise stated all tables and charts are based on net disbursement data from all donors (DAC countries, multilateral donors and non-DAC donors reporting to the OECD) derived from DAC database.

Exceptions are 'Sector' chapters which are based on commitments and only on data from DAC countries and multilateral donors derived from CRS datasets.

Discrepancies may occur when the data are based on difference sources. For example data based on commitments will vary from data on disbursements.

## BASIC DEFINITIONS

<b>ODA</b>	<b>OFFICIAL DEVELOPMENT ASSISTANCE.</b> Grants or loans to countries and territories on Part I of the DAC List of Aid Recipients (developing countries) which are: (a) undertaken by the official sector; (b) with promotion of economic development and welfare as the main objective; (c) at concessional financial terms [if a loan, having a grant element of at least 25 per cent]. In addition to financial flows, technical co-operation is included in aid. Grants, loans and credits for military purposes are excluded.
<b>DAC</b>	<b>DEVELOPMENT ASSISTANCE COMMITTEE.</b> The committee of the OECD which deals with development co-operation matters. The members of the DAC are: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Greece, Italy, Ireland, Japan, Luxembourg, the Netherlands, New Zealand, Norway, Portugal, Spain, Sweden, Switzerland, the United Kingdom, the United States and the European Commission.
<b>COMMITMENT</b>	A firm obligation expressed in writing and backed by the necessary funds, undertaken by an official donor to provide specified assistance to a recipient country or a multilateral organisation. Commitments are recorded in the full amount of expected transfer, irrespective of the time required for the completion of disbursements.
<b>DISBURSEMENT</b>	The release of funds to or the purchase of goods or services for a recipient; in other words the amount spent by extension. Disbursements record the actual international transfer of financial resources, or of goods or services valued at the cost to the donor.
