

## Draft decision -/CP.18

### National adaptation plans

*The Conference of the Parties,*

*Recalling* Article 4, paragraphs 4 and 9, and other relevant Articles of the Convention,

*Also recalling* decisions 11/CP.1, 27/CP.7, 1/CP.16, 2/CP.17, 3/CP.17 and 5/CP.17,

*Further recalling* the initial guidelines for the formulation of national adaptation plans by the least developed country Parties, adopted by decision 5/CP.17,

*Reaffirming* that because of their development status, climate change risks magnify the development challenges for the least developed country Parties,

*Recalling* that national adaptation plans are a process to enable the least developed country Parties to formulate and implement national adaptation plans, building upon their experience in preparing and implementing national adaptation programmes of action, as a means of identifying medium- and long-term adaptation needs and developing and implementing strategies and programmes to address those needs, and that other developing country Parties were invited to employ the modalities formulated to support national adaptation plans in the elaboration of their planning effort,<sup>1</sup>

*Underlining* that planning for adaptation at the national level is a continuous, progressive and iterative process, the implementation of which should be based on nationally identified priorities, including those reflected in the relevant national documents, plans and strategies, and coordinated with national sustainable development objectives, plans, policies and programmes,

*Encouraging* the Adaptation Committee, in accordance with its agreed functions, to continue its work in developing the relevant modalities for supporting interested developing countries that are not least developed country Parties to plan, prioritize and implement their national adaptation planning measures, including through the use of the modalities contained in decision 5/CP.17,

*Reaffirming* the importance of the need to address adaptation planning in the broader context of sustainable development planning,

*Underlining* that the national adaptation plan process should build on and complement existing adaptation planning, should not be prescriptive and should facilitate country-driven, gender-sensitive, participatory action, taking into consideration vulnerable groups, communities and ecosystems,

*Appreciating* the contributions made by developed country Parties to the Least Developed Countries Fund and the Special Climate Change Fund to date,

*Recognizing* that the Green Climate Fund will support developing countries in pursuing project-based and programmatic approaches in accordance with climate change strategies and plans,<sup>2</sup> such as national adaptation programmes of action, national adaptation plans and other related activities,

*Recalling* its request to the Subsidiary Body for Implementation to consider guidance on policies and programmes to enable support for the national adaptation plan process for the least developed country Parties, at its thirty-sixth session, for consideration by the Conference of the Parties at its eighteenth session,

*Welcoming* the Nairobi work programme on impacts, vulnerability and adaptation to climate change compilation of case studies on national adaptation planning processes,<sup>3</sup> and the report on the twenty-second meeting of the Least Developed Countries Expert Group,<sup>4</sup>
