Instituto de Relaciones Internacionales

Actividades del Director

"Dear Colleagues & Friends,

We would like to congratulate you for the 15th year of your partnership as members of the Editorial and/or International Advisory Boards with the International Studies Journal (ISJ). We are proud and honored for your support of our goals to promote international human rights law, international relations studies, and international law. A variety of subject-fields are constantly being discussed in ISJ, including terrorism, human rights, extremism, good governance, and multilateralism. ISJ's success as a quarterly gave us the chance to hold over ten international seminars and conferences and twenty UN simulation models in Tehran, alongside the UN, ICRC, and UNHCR. Today with the suggestion of some of our Editorial and International Advisory Board Members we aim to register ISJ as an NGO in Paris, France with the name of: "Centre des Etudes des Coopérations Internationales". This center will be based in Paris, France and will continue to publish ISJ quarterlies, hold conferences, workshops, book review sessions, simulation models, summer schools, and several other events on issues such as combatting terrorism and extremism, human rights and multilateralism. For your convenience, I have attached the status of this NGO to this email. We will be very honored if you could please confirm your participation and engagement in this NGO with which we could continue ISJ's goal stronger than ever.

Sincerely,

Mehdi Zakerain

Editor-in-Chief of ISJ Professor of Human Rights

Teherán, Irán"
