Letter from the SCE Chair

It is with great pleasure that I present the 2018 APEC Senior Officials' Report on Economic and Technical Cooperation.

The work of the SOM Steering Committee on ECOTECH (SCE) and its fora in 2018 has been guided by the APEC 2018 theme of “Harnessing Inclusive Opportunities, Embracing the Digital Future” and the ECOTECH medium-term priorities.

The SCE continued to guide the work of its fora. A new, standardized fora assessment system began with four assessments completed in 2018. A further seven fora will be assessed in 2019 with 2020 seeing the final five fora assessed. This will allow the SCE to have an entire suite of fora assessments prior to the expiration of Terms of Reference in 2021. The Committee of the Whole discussions were again structured to better identify cross-fora issues and opportunities. Guidelines developed in 2017 have brought a marked increase in cross-fora collaborations amongst SCE fora and between SCE fora and the Committee on Trade and Investment and the Economic Committee and their fora.

2018 also saw SCE further discuss remote areas. This work included a SCE commissioned APEC Policy Support Unit paper on the development and integration of remote areas. Further work has been initiated by member economies in the form of proposed projects and a new sub-fund on Economic Development in Remote Areas.

This Report highlights some of the many activities of the SCE working groups and task forces. These are viewed through the lenses of the ECOTECH medium term priorities and the APEC Strategy for Strengthening Quality Growth, including its focus on institution building, social inclusion and environmental impact. I am pleased to highlight that the efforts of SCE fora in 2018 contributed to the development of key APEC deliverables in the areas of increased food security, human resources in a digital age, gender inclusion, small and medium sized enterprises and innovation, and sustainable tourism, among many others.

Indeed, as the benefits of globalization are questioned by many, we should be encouraged to better highlight our achievements which address the nature, reach and sustainability of inclusive growth that we advocate.

In presenting this Report, I wish to acknowledge the commitment, hard work and contributions of APEC members, the SCE fora and our dedicated fora Chairs and Lead Shepherds.

As the work of the SCE is of course not done, I welcome Malaysia as the incoming SCE Chair, and I look forward to working closely with them.

Sincerely yours,

Mathias Francke
Chair, SOM Steering Committee on ECOTECH

Executive Summary

In 2018, the SOM Committee on Economic and Technical Cooperation (SCE) held three meetings in the margins of Senior Officials Meetings (SOM) under the chairmanship of Mr Mathias Francke, Chile Senior Official for APEC and Director of Multilateral Economic Affairs, General Directorate for International Economic Affairs (DIRECON/MFA). The SCE Vice Chair was Mr Lahui Ako, APEC Senior Official for Papua New Guinea. It organized the thirteenth annual SCE Committee of the Whole (SCE-COW) meeting and an informal meeting of SCE fora Chairs and Lead Shepherds. The SCE also conducted its business through intersessional discussion.

The SCE continued facilitating collaboration among APEC fora with numerous cross-fora collaborations amongst SCE sub-fora. In addition, 2018 saw several cross-fora collaborations between SCE sub-fora and sub-fora from both the Committee on Trade and Investment and the Economic Committee.

The SCE continued to refine the format of the SCE-COW and related discussions to encourage greater engagement among the representatives of SCE fora.

The SCE undertook four independent assessments of SCE fora in 2018, and developed plans to assess the remaining 13 fora. The new system generated more consistent and comparable results across fora. The SCE established Fora Assessment Team for 2018 met in the margins of SCE3 to make further recommendations on content, format, and timeline for future assessments.

The SCE continued to contribute toward the implementation of the *Policy on APEC's Capacity Building through Economic and Technical Cooperation*. The SCE and BMC approved streamlined project approval process took effect in 2018.

The SCE continued to play its central role with respect to the administration of SCE fora. Annual Work Plans were approved by the SCE, as were longer-term Strategic Plans as required. Also new Terms of Reference, including sunset clauses have been approved for all fora.

Five APEC economies made financial contributions to the APEC Support Fund (ASF).

A discussion of the above and other highlights and priorities are set out in Section 2.

Section 3 gives an overview of each fora in a table format outlining the projects, both funded by APEC and self-funded by economies, undertaken since the 2017 Report. The table also includes information on how various projects and other initiatives of SCE fora addressed each of the ECOTECH medium term priorities. Furthermore, the table highlights how the activities of SCE fora addressed the key accountability areas of the *APEC Strategy for Strengthening Quality Growth* endorsed by Leaders in 2015. Also found in the table are key achievements of the SCE fora since the 2017 Report.

The Policy Partnership on Women and the Economy (PPWE) organized the Women and the Economy Forum in September 2018, which included a High Level Policy Dialogue on Women and the Economy and a Public-Private Dialogue on Women and the Economy.

The Health Working Group (HWG) contributed to the 8th APEC High Level Meeting on Health and the Economy.

The Tourism Working Group (TWG) contributed to the 10th Tourism Ministerial Meeting and delivered the 4th State of Tourism report.

The Agriculture Technical Cooperation Working Group (ATCWG) contributed to Food Security Week, which included ABAC Food Security Symposium; a Policy Dialogue on Women in Agriculture and Fisheries; and the 2nd Joint Agricultural Technical Cooperation Working Group – High Level Policy Dialogue on Agriculture Biotechnology – Oceans and Fisheries Working Group – and Policy Partnership on Food Security meeting.

Recommendations

The following recommendations are proposed to the 2018 APEC Ministerial Meeting (AMM):

- 1. Note the 2018 Senior Officials' Report on Economic and Technical Cooperation;*
- 2. Welcome the achievements of the SCE Working Groups and Task Forces;*
- 3. Welcome the implementation of a new SCE Standardized Fora Assessment System; and*
- 4. Welcome 2018 contributions to the APEC Support Fund from Australia; China; Japan; New Zealand; and Chinese Taipei.*

1. Introduction

In 2018, the SCE was chaired by Mr Mathias Francke, APEC Senior Official for Chile. The SCE Vice Chair was Mr Lahui Ako, Senior Official for Papua New Guinea.

The Committee met on three occasions during 2018 and accomplished the following:

- a. implemented a new, standardized fora assessment system;
- b. together with the Budget and Management Committee (BMC), implemented the new streamlined project funding process to further facilitate capacity-building goals;
- c. further promoted cross-fora collaboration, including the implementation of new guidelines; and
- d. facilitated the work of SCE sub-fora by providing direction on Work Plans, Strategic Plans and Terms of Reference.

The SCE met in Port Moresby, Papua New Guinea, on 6 March 2018. The SCE endorsed its own work plan (2018/SOM1/SCE/003) and took note of the Report of the Executive Director on the Alignment of Fora Work Plans with APEC's Overall Vision and Objectives (2018/SOM1/SCE/004). The SCE endorsed the new standardized fora assessment report template. The SCE approved the Counter-Terrorism Working Group (CTWG) Strategic Plan 2018-2022. The SCE approved the Experts Group on Illegal Logging and Associated Trade (EGILAT) Strategic Plan 2018-2022. The SCE endorsed the revised Terms of Reference of the following fifteen SCE sub-fora (Anti-Corruption and Transparency Working Group; Agricultural Technical Cooperation Working Group; Counter-Terrorism Working Group; Energy Working Group; Emergency Preparedness Working Group; Experts Group on Illegal Logging and Associated Trade; Human Resources Development Working Group; Health Working Group; Mining Task Force; Ocean and Fisheries Working Group; Policy Partnership on Science, Technology, and Innovation; Policy Partnership on Woman and the Economy; Small and Medium Enterprises Working Group; Telecommunications and Information Working Group; and Tourism Working Group) and recommended them to SOM for approval. The SCE endorsed in principle the proposal to hold a policy dialogue as set out in the discussion paper from Papua New Guinea on *Harnessing Growth in the Resources Sector*, while noting the comments of members.

The annual SCE Committee of the Whole (SCE-COW) was held in Port Moresby, on 5 March 2018. It was attended by 20 APEC member economies and 17 convenors or their representatives from SCE fora. This was preceded by an informal meeting of fora Chairs and Lead Shepherds, chaired by the Executive Director of the APEC Secretariat, together with group discussions based on the 2018 host year priorities. These latter discussions, which sought to explore cross-fora issues and opportunities, witnessed particularly active engagement from participants. The SCE-COW approved the annual work plans of 15 of 17 working groups and task forces. The SCE-COW took note of the APEC Secretariat's *Report on Synergies within the ECOTECH Agenda*, together with the comments of members.

The second SCE meeting (SCE2) was held in Port Moresby on 20 May 2018. SCE approved the 2018 Work Plans for Agricultural Technical Cooperation Working Group and the Transportation Working Group. The SCE endorsed the revised Terms of Reference for Transportation Working Group and

recommended it for SOM approval. The SCE noted an update from Papua New Guinea on *Harnessing Growth in the Resources Sector*. The SCE noted an update from Russia on the initiative: *Bridging the Gap in Economic Development and Integration of Remote Areas for Sustainable Growth in the APEC Region*, with discussion continuing intersessionally. The SCE noted Australia's non-paper on a *Sub-Fund to Support Initiatives on Economic Development in Remote Areas*, with discussion continuing intersessionally.

The third SCE meeting (SCE3) was held in Port Moresby on 18 August 2018. The SCE continued implementing the new standardized fora assessment program and endorsed the schedule of fora to be assessed in 2019 and 2020 recommended by the 2018 Fora Assessment Team comprised of Chile; China; Malaysia; New Zealand; Papua New Guinea; Singapore; and Chinese Taipei. The SCE endorsed the Secretariat's plan to streamline the 2018 ECOTECH report (2018/SOM/SCE3/002). The SCE endorsed the Transportation Working Group's Strategic Plan. The SCE noted an update from Russia on the initiative: *Bridging the Gap in Economic Development and Integration of Remote Areas for Sustainable Growth in the APEC Region*, with discussion continuing intersessionally. SCE noted the Policy Support Unit (PSU) update on the *Study to Support Initiatives on Economic Development in Remote Areas*. SCE noted the Australia proposal to establish a new *Sub-Fund for Economic Development in Remote Areas* with discussion continuing intersessionally. SCE noted China and Papua New Guinea's co-proposed initiative (with Chile co-sponsoring) on *Poverty Alleviation through Internet and Digital Economy for Inclusive Development*, with discussion continuing intersessionally. The SCE noted Papua New Guinea's update on the outcomes of the *SOM Policy Dialogue on Harnessing Growth in the Resources Sector in the APEC Region*, with PNG requesting discussion and guidance to continue intersessionally.

2. 2018 Highlights and Priorities

2.1 New, Standardized Fora Assessment System

The Secretariat contracted with Developing Trade Consultants of the United States, to conduct independent fora assessments of four fora: Counter-Terrorism Working Group; Energy Working Group; Human Resources Development Working Group; and Group of Friends on Disability.

The Fora Assessment Team developed a recommendation to SCE on the fora to be assessed in 2019 and 2020. These recommendations were approved at SCE3. The schedule will have all fora assessed by the end of 2020, before the expiration of their Terms of Reference in 2021. The 2018 Fora Assessment Team was comprised of: Chile; Papua New Guinea; and Malaysia, being the SCE Chair, previous chair and subsequent chair for 2019, together with the volunteer members of the People's Republic of China; New Zealand; Singapore; and Chinese Taipei.

2.2 Cross-Fora Collaboration

a. Increased Cross-Fora Collaboration

Increasing cross-fora collaboration has been under discussion in recent years. A fifth meeting of SCE Fora Chairs and Lead Shepherds (SCE-Committee of the Whole) was held on 5 March 2018 in Port Moresby, Papua New Guinea. Chairs and Lead Shepherds or their representatives from all seventeen SCE fora participated. The presence of Chairs, Lead Shepherds or their representatives increased their interactions with each other and Senior Officials, leading to useful practical suggestions for collaborating with other APEC fora. Also at 2018 SCE-Committee of the Whole, the APEC Secretariat introduced its report, “*SCE Report on Synergies within the ECOTECH Agenda*” (2018/SOM1/SCE-COW/004), which included information on new criteria for scoring concept notes under the streamlined project approval process concerning cross-fora collaboration. As a result, we are witnessing an increasing number of joint or multi-group meetings during SOM clusters. The standardized fora assessment program also measures data and indicators relating to cross-fora collaboration. In addition, there has been a marked increase in the number of cross-fora collaborations amongst SCE fora as well as between SCE fora and the fora of Economic Committee and Committee on Trade and Investment.

b. SCE's Cross-Fora Collaboration on Selected Specific Topics

Policy Partnership for Women and the Economy - A significant development in 2018 has been the implementation of the new Women and the Economy Sub-Fund. Policy Partnership for Women and the Economy has undertaken a concerted effort of highlighting to other fora the new Sub-Fund, which aims to encourage cross-fora collaboration and integration of gender issues across APEC. These efforts have paid off with nineteen project proposals seeking access to the Sub-Fund from various different APEC fora (Tourism Working Group; Economic Committee; Small and Medium Enterprises Working Group; Energy Working Group; Policy Partnership for Science, Technology and Innovation; Oceans and Fisheries Working Group; Agriculture Technical Cooperation Working Group; Policy Partnership on Food Security; and Human Resources Development Working Group) having been submitted, on issues ranging from promoting women's inclusion in the maritime sector, to looking at the role of structural reform in women's economic empowerment. In total, seven new projects have been approved under the Sub-Fund in 2018.

Telecommunications Working Group is collaborating with several other working groups and fora (Emergency Preparedness Working Group; Electronic Commerce Steering Group; Group of Friends on Disability; and Human Resources Development Working Group) on a range of issues including emergency preparedness, disability issues, digital economy measurements, enhancing digital inclusion, creating a safer digital environment, and encouraging multiple stakeholders to develop digital literacy. These efforts advance all three of Papua New Guinea's host year priorities.

Agricultural Technological Cooperation Working Group actively collaborated with several other fora and working groups including High Level Policy Dialogue Agricultural Biotechnology; Oceans and Fisheries Working Group; and Policy Partnership on Food Security to hold a joint meeting at SOM3 as part of Food Security Week. This meeting and the associated workshops and symposiums also included participants from the private sector.

2.3 Fora Administration

a. Making Recommendations to SOM on the Terms of Reference of SCE Fora

In accordance with the SCE Terms of Reference, the SCE has the mandate to “review the role and operation of Working Groups and Task Forces with a view to making recommendations to the SOM on establishing, merging, disbanding or reorienting” such working groups and task forces. In 2018, the SCE recommended to SOM to endorse the revised Terms of References of 16 fora. As a result, 15 fora have Terms of Reference that expire in 2020-2021. Please see Table 1 for an overview of fora administration.

b. Approving Strategic Plans

In 2018, SCE approved three Strategic Plans: Transportation Working Group for 2018-2020; Counter Terrorism Working Group for 2018-2022; and Experts Group on Illegal Logging and Associated Trade for 2018-2022.

c. Approving Annual Work Plans

The Terms of Reference of SCE, as reconfirmed in 2016, mandates SCE to “assess and direct realignment of individual work plans of Working Groups and SOM Special Task Groups with the APEC-wide medium-term ECOTECH priorities and annual objectives as outlined in the ECOTECH framework” and stipulates that “to this purpose, all Working Groups and SOM Special Task Groups should submit their strategic and annual work plans to the SCE no later than three weeks prior to SOM I for consideration at the SCE-Committee of the Whole.”

Seventeen work plans were submitted and approved by SCE in 2018: Anti-Corruption and Transparency Working Group; Agricultural Technical Cooperation Working Group; Counter Terrorism Working Group; Experts Group on Illegal Logging and Associated Trade; Emergency Preparedness Working Group; Energy Working Group; Group of Friends on Disability; Human Resources Development Working Group; Health Working Group; Mining Task Force; Oceans and Fisheries Working Group; Policy Partnership on Science, Technology and Innovation; Policy Partnership on Women and the Economy; Small and Medium Enterprises Working Group; Telecommunications and Information Working Group; Transportation Working Group; and Tourism Working Group.

At SCE1 in 2018, the Executive Director of the APEC Secretariat presented a report, *Alignment of Fora Work Plans with APEC's Overall Vision and Objectives* (2018/SOM1/SCE/004) which noted that most SCE sub-fora focused their activities to respond to the mandates given to them by the

Leaders and Ministers. Many sub-fora, such as Anti-Corruption and Transparency Working Group, Counter Terrorism Working Group; Experts Group on Illegal Logging and Associated Trade; Emergency Preparedness Working Group; Energy Working Group; Human Resources Development Working Group; Health Working Group; Oceans and Fisheries Working Group; Policy Partnership on Women and the Economy; Small and Medium Enterprises Working Group; and Tourism Working Group, specifically cite recent instructions of Ministers. A number of these also refer to 2018 APEC priorities. Most notably, all work plans also make linkages between their specific activities and the relevant ECOTECH Medium Term Priorities, which is facilitated by the new template. It is noted, however, that some work plans may have been developed before the 2018 APEC priorities were widely circulated.

2.5 APEC Support Fund

In 2004, Ministers endorsed the Australian proposal to set up the APEC Support Fund (ASF) to serve as a flexible funding mechanism to complement the existing General Project Account (GPA) (previously known as Operational Account) and Trade and Investment Liberalisation and Facilitation Fund (TILF). The ASF aims to meet the capacity building needs for developing economy members in APEC's agreed high priority sectors for economic and technical cooperation. Since its inception, the fund has received contributions from many economies.

Voluntary contributions by APEC members to the ASF in 2018 (as of 30 September 2018) were made or committed by five economies: Australia; China; Japan; New Zealand; and Chinese Taipei.

Australia provided a contribution to the ASF General Fund of USD 441,075, under the 2018 Memorandum of Understanding (MOU) signed with the APEC Secretariat, as well as the re-dedication from the uncommitted balance of another sub-fund, which ceased to operate.

China, as part of its five-year commitment to contribute to the ASF, contributed USD 1.8 million in total to the ASF General Fund as well as three sub-funds – Free Trade Area of the Asia-Pacific and Global Value Chains (FTAAP & GVCs) Sub-fund; Innovative Development, Economic Reform and Growth (IERG) Sub-fund; and Connectivity Sub-fund.

Japan made a voluntary contribution amounting to USD 1,019,970 to the ASF Energy Efficiency Sub-Fund.

New Zealand provided a contribution to the ASF General Fund of USD 30,376 as well as a contribution to the ASF Sub-fund on Women and the Economy of USD 30,376.

Chinese Taipei contributed USD 350,000 to the ASF General Fund, as well as USD 200,000 to the ASF Human Security Sub-Fund and USD 100,000 to the ASF Sub-Fund on Women and the Economy.

+ If MTF's mandate is not renewed, SMEWG will be assessed in 2019 otherwise it will be assessed in 2020.

3. SCE Fora in Action

The work of SCE is evident in the number and scope of its 17 fora and the projects overseen by those fora.

For a more thorough examination of the work done by each fora, including most recent plenary meeting statistics, gender makeup of meetings, alignment with ECOTECH Priorities, and efforts to implement quality growth, please refer to the Fora in Action tables that follow. Each working group has a table on the following pages.

The table below containing the number of APEC-funded approved projects by fora.

Alignment with ECOTECH Priorities (eg. Sustainable Growth)				<p>In 2018, EGILAT made many progress in the area of sustainable development including through:</p> <p>Compiling the EGILAT Timber Legality Guidance Template.</p> <p>Compiling the Lists of Law Enforcement Points of Contact.</p> <p>Developing the multi-year strategic plan 2018-2022 and decided to continuously focus its efforts on combating illegal logging and associated trade within the APEC region and promoting the trade in legal forest products during the period.</p> <p>Cooperating with relevant APEC fora and other international organizations such as Forest Trends, Agriculture Organization of the United Nations (FAO), PNG Forest Industries Association, World Wildlife Fund (WWF) - China, Nature Home China (represented by WWF), Global Timber Forum (GTF), INTERPOL, Forest Trends, and The Nature Conservancy (TNC).</p> <p>Implementing the following projects:</p> <ul style="list-style-type: none"> •Project (EGILAT 01 2018S) on theme of Multistakeholder Dialogue on Corporate Social 				

	<p>Responsibility (CSR) Best Practices to Promote Legal Trade of Wood Products that was organized by Papua New Guinea in 8-9 August 2018 in the margin of SOM3 in Port Moresby, Papua New Guinea.</p> <ul style="list-style-type: none"> •Project (EGILAT 01 2018A) on Implementation of Tools for Combating and Preventing Illegal Logging Activities and Associated Trade was approved in Project Session 1 and has been implementing by Chile. • CN on Enhance Forestry MSMEs Integration into the Global Value Supply Chain and expected to submit in Project Session1, 2019.
Implementing Quality Growth	<p>EGILAT agreed to establish a Core Group which consist of the Chair's economy, the host economy, incoming host economy and other volunteers in order to support the work of the Chair and the intersessional discussion on the specific topics. In 2018, it included Indonesia, PNG, Chile, Australia, Canada, China, Japan, Malaysia, Peru, the Philippines and the US.</p> <p>EGILAT tasked the Core Group to work intersessionally to finalize a procedure for selecting the policy dialogue topic for 2019 so that a topic is selected in advance of EGILAT 15. The final selected topic should be included in the work plan for 2019.</p>
Cross-Fora Collaborations	<p>EGILAT has been working with ACTWG and SCCP in combatting illegal logging and associated trade.</p>
2018 Key Achievements	<ol style="list-style-type: none"> 1. EGILAT's Multi-Year Strategic Plan 2018-2022 was endorsed. 2. EGILAT agreed to revise the ToR to include the Sunset Clause and Quorum. 3. EGILAT has made progress in compiling the EGILAT Timber Legality Guidance Template and 8 economies (Australia, Chile, Japan, Korea, Malaysia, New Zealand, Chinese Taipei, and the US) have developed and submitted their respective documents. EGILAT members agreed to post all completed TLGTs on the EGILAT workspace of the public APEC website. 4. EGILAT has made progress in compiling the Lists of Law Enforcement Points of Contact. 7 economies (Australia, Canada, Chile, Japan, New Zealand, PNG and the US) have developed and submitted their respective documents. EGILAT reaffirmed that the lists will be uploaded on ACS for members' internal use only. 5. Chile's project proposal on theme of Implementation of Tools for Combating and Preventing Illegal Logging Activities and Associated Trade" was approved by APEC. 6. EGILAT implemented a project (self-funded) on Multistakeholder Dialogue on Corporate Social Responsibility (CSR) Best Practices to Promote Legal Trade of Wood Products.

Recommendations from Fora Report				Economies’ representatives to EPWG are often essential disaster management officials. When disaster strikes in their economies, their priority must be to coordinate				

		relief and reconstruction efforts. These responsibilities sometimes prevent them from traveling for EPWG meetings, particularly for economies that experience monsoons, which occur frequently during the SOM III timeframe. With this constraint in mind, EPWG suggest SCE/SOM consider easing quorum requirements for EPWG.

Alignment with Host Economy Goals and Priorities				<p>PPSTI focused 2018 discussions on embracing digital technologies for inclusive and sustainable development to: 1) foster smart living and healthy aging; 2) promote S&T-focused entrepreneurship among women; and 3) catalyse data sharing for economic resilience. These supported Papua New Guinea’s host year priorities and PPSTI’s goals.</p> <p>PPSTI developed science, technology, and innovation (STI) policy recommendations for APEC members to meet economic goals in the APEC region.</p>				
Alignment with ECOTECH Priorities (eg. Sustainable Growth)				<p>Cross-cutting priorities</p> <ul style="list-style-type: none"> •Developing human capital through capacity building •Developing and strengthening the dynamism of SMEs •Harnessing technologies for the future and supporting innovation •Inclusive growth—addressing the social dimension of globalization, health, gender <p>Workstream priorities</p> <ul style="list-style-type: none"> •Safeguarding the quality of life through sustainable growth 				
Implementing Quality Growth				<p>PPSTI established closer linkages between PPSTI projects/dialogues and private sector participation and input.</p> <p>PPSTI developed a “Backgrounder” to advertise to private sector and others ways to engage with PPSTI; PPSTI agreed to explore working with the Asia Pacific Rim Universities (APRU) to include the PPSTI Backgrounder on APRU’s website.</p> <p>PPSTI discussed a framework for private sector and academia “Knowledge Partners” to contribute on specific topics identified by PPSTI; PPSTI endorsed for PPSTI members and Principal Advisor to target 1-2 knowledge partners to attend PPSTI13.</p>				
Cross-Fora Collaborations				<p>PPSTI established PPSTI liaisons to other key working groups: Human Resources Development Working Group (HRDWG), Health Working Group (HWG), Life Sciences Innovation Forum (LSIF), and Oceans and</p>				

	<p>Fisheries Working Group (OFWG)</p> <ul style="list-style-type: none"> •PPSTI presented at the Chief Science and Equivalent’s Meeting in October 25-26. •PPSTI presented at the SOM3 Multistakeholder Dialogue on APEC Toward 2020 and Beyond. •PPSTI endorsed continuing to explore with other APEC for a long-term partnership. •PPSTI hosted the Energy Working Group (EWG), HRDWG, and organizations at PPSTI11 for a discussion on cross-fora collaboration. EWG’s Lead Shepherd presented at PPSTI11, and PPSTI’s ABAC Principal Advisor presented at EWG’s meeting in Hong Kong, China. •The LSIF Chair presented at PPSTI12’s August 15 Innovation Policy Sharing Seminar
<p>2018 Key Achievements</p>	<p>PPSTI developed a PPSTI policy statement on supporting innovation for health incorporating private sector, academic, and research institutions’ contributions at the August 15 Innovation Policy Sharing Seminar on that topic to be considered by APEC Ministers:</p> <p>We encourage business, academia, government and civil society to develop an enabling environment, strong partnerships and promote lifelong learning to foster and apply new technologies and innovations to the challenges of an ageing society. To address these needs Technologies should be developed to be cross disciplinary, inclusive, timely and ethical to maximize the benefits for all APEC economies.</p> <p>PPSTI projects produced and reported on policy recommendations in PPSTI sub-groups in areas of enabling an environment for scientific research and market-based innovation, facilitating STI capacity building, and promoting regional STI connectivity.</p> <p>PPSTI is implementing 8 APEC funded projects, 2 initiatives and proposed 8 new self-funded project in 2018.</p> <p>PPSTI awarded the 2018 APEC Science Prize for Innovation, Research, and Education (ASPIRE) with the theme of “Smart Technologies for Healthy Societies” to Dr. Madhu Bhaskaran from Australia.</p> <p>PPSTI held the Second PPSTI APEC Centres Cooperation Conference (Suzhou, June 2018) by APEC Centre for Technology Transfer and encouraged further collaboration among PPSTI Centres of scientific expertise.</p> <p>PPSTI12 held an Innovation Policy Sharing Seminar titled “Supporting Innovation for Health: Roundtable with the Private Sector.” The Seminar included the framing question: what policies are needed to further spur commercially-viable innovation to support resilient living and healthy aging. Invited speakers from the private sector, academic, and research institutions contributed expertise to the 2018 PPSTI Policy Statement.</p>

		<p>PPSTI endorsed additions to the PPSTI Terms of Reference (TOR) on quorum and the term of PPSTI.</p> <p>PPSTI confirmed APEC Virtual Center for Environmental Technology Exchange as the ninth APEC PPSTI center and endorsed its proposal on changing strategy.</p>

Alignment with Host Economy Goals and Priorities				In implementing activities under activities TEL Strategic Action Plan 2016-2020 related to: 1) Develop and support ICT innovation; 2) Promote a secure, resilient and trusted ICT environment; 3) Promote regional economic integration; 4) Enhance the Digital Economy and the Internet Economy and; 5) Strengthen cooperation, TELWG contributed to APEC 2018's overall theme and one of its key priorities, namely "Harnessing Inclusive Opportunities, Embracing the Digital Future" and "Strengthening Inclusive Growth through Structural Reform".				
Alignment with ECOTECH Priorities (eg. Sustainable Growth)				Through implementing the TEL Strategic Action Plan 2016-2020, TELWG activities contributed to ECOTECH Priorities such as developing human capital through capacity building, harnessing technologies for the future and supporting innovation, inclusive growth, regional economic integration and human security.				
Implementing Quality Growth				Activities conducted by TELWG related to universal broadband access and inclusive growth support the Key Accountability Area (KAA) of "Social Cohesion" under the 2015 APEC Strategy for Strengthening Quality Growth.				
Cross-Fora Collaborations				<ul style="list-style-type: none"> • Extension of ICT Application for the People with Special Needs (Ageing and Disability) (Multi-year project, self-funded, Japan) – with GOFD • Survey of initiatives in APEC Economies to promote access to ICTs for people with a hearing and/or speech impairment (Multi-year project, self-funded, Australia) – with GOFD • Earthquakes and Waterfloods Monitoring System with the application of the Internet of Things (IoT) (TEL58, APEC-funded, Russia) – with EPWG • Digital Economy: Strategies and Indicators (TEL58, self-funded, Singapore) – with ECSG 				

		<ul style="list-style-type: none"> Industry Roundtable on Best Practices for Enhancing Citizens' Digital Literacy (TEL58, self-funded, Chinese Taipei) – with HRDWG 	
2018 Key Achievements		<ul style="list-style-type: none"> Endorsement of the TELWG 2018 Work Plan Completion of the mid-term review of the TEL Strategic Action Plan 2016-2020 Activities in 2018: <ul style="list-style-type: none"> There were seven (7) self-funded projects conducted at TEL57 held in June 2018, one (1) APEC-funded and two (2) self-funded projects to be completed by 2018, two (2) self-funded projects under implementation until 2020, and one (1) annually implemented project. The remaining seven (7) projects were carried out at the TEL58 in October 2018. One (1) APEC-funded project has been approved in principle by the Budget and Management Committee (BMC) for fund disbursement and implementation, with expected completion by 2019. 	
Recommendations from Fora Report		It is recommended that SCE note the TELWG report.

4. Recommendations

The following recommendations are proposed to the 2018 APEC Ministerial Meeting (AMM):

1. *Note the 2018 Senior Officials' Report on Economic and Technical Cooperation;*
2. *Welcome the achievements of the SCE Working Groups and Task Forces;*
3. *Welcome the implementation of a new SCE Standardized Fora Assessment System; and*
4. *Welcome 2018 contributions to the APEC Support Fund from Australia; China; Japan; New Zealand; and Chinese Taipei.*

SOM Steering Committee on Economic and Technical Cooperation 2018 Work Plan

1. Proposed Work for 2018 in Response to Leaders/ Ministers/SOM Decisions and SCE Priorities.

- Provide policy recommendations that are related to ECOTECH groups, to SOM;
- Coordinate and supervise all ECOTECH-related Working Groups and Task Groups, including reviewing and recommending any fora's ToR revision to SOM;
- Review the operation and effectiveness of the SCE;
- Provide policy guidance on the ECOTECH agenda in the development of sub-fora strategic plans;
- Continue to implement SCE's Decision on New Fora Assessment program;
- Monitor the implementation by sub-fora of previous Independent Assessment recommendations;
- Determine eligibility and score concept notes applying for funding under ASF sub-funds assigned to the responsibility of the SCE; and,
- Consolidate the SCE Fora Reports and prepare annual SOM Report on ECOTECH to Ministers.

2. Strengthening coordination among and across sub-fora

- Promote cross-fora collaboration across APEC sub-fora, including through implementation of the 2016 Recommendations on Cross-Fora Collaboration together with the 2017 APEC Guidelines on Promoting Cross-Fora Collaboration;
- Review and consider any possible options to make the SCE and SCE COW arrangements more effective; and,
- Supervise or coordinate cross-cutting issues and specific initiatives assigned to SCE, such as the Mainstreaming Ocean-Related Issues Steering Council.
- Consider options to coordinate the implementation of the 2017 APEC Action Agenda on Advancing Economic, Financial and Social Inclusion in the APEC Region, as directed by Leaders.

3. Expected Outcomes/Deliverables for 2018

- Implementation of Standardized Fora Assessment Program, including convening of the Assessment Team for 2018, and developing the assessment schedule for 2019 and beyond.
- Consideration of new ways to strengthen cross fora collaboration through the SCE process;
- Approval of the SCE sub-fora's annual work plans;

- Review and approval of the Strategic Plans for those sub-fora with expiring strategic plans;
- Review and recommendation of the revised ToRs of certain sub-fora to SOM, including in connection with governance reforms agreed by SOM in 2017; and,
- Submission of the annual SOM Report on ECOTECH to Ministers at AMM 2018.

SCE Report on Synergies within the ECOTECH Agenda 2018

Background

1. The SCE has tasked “the Secretariat to undertake a strategic assessment of synergies within the ECOTECH agenda after SOM1 and provide recommendations to SCE2 about gaps that may require SCE attention or direction” (point 7 of *SCE Report on Improving ECOTECH in APEC* (2013/SOM3/030)).
2. The first report by the APEC Secretariat (2014/SOM2/SCE/004) was submitted to the SCE2 in 2014. The second report was presented to the SCE2 in 2015.
3. As has been the case since 2016, the current version of the report is prepared and presented to the SCE Committee of the Whole Meeting (SCE-COW), in the view of helping to facilitate the discussion of cross-fora collaboration at the SCE-COW, given the attendance of sub-fora convenors or their representatives. It is also believed that the discussion of cross-fora collaboration early in the APEC year might have greater impact on the activities of the sub-fora throughout the year.
4. The 2018 report has been rationalised somewhat from recent versions. The current report does not include the tables attached to the previous versions which identified areas of potential cross-fora collaboration according to both sub-fora work plans and annual APEC priorities. For this specific information, one is invited to review the 2018 Work Plans of the SCE sub-fora, the template for which asks sub-fora to specify which other sub-fora or organisations it plans to collaborate with, and how. Similar reporting is sought in the template for annual Fora Reports submitted later in the APEC year.

Review of the annual work plans of the SCE fora

5. The APEC Secretariat analysed fifteen (15) sub-fora work plans: ACTWG, ATCWG, CTWG, EGILAT, EPWG, EWG, HRDWG, MTF, OFWG, PPSTI, PPWE, TELWG and TWG submitted as of 1 March 2018 for approval at the SCE-COW; and draft work plans of HWG and SMEWG pending endorsement at the sub-fora level. The Secretariat analysis came to the following broad conclusions:
 - SCE sub-fora identified close to seventy areas of potential cross-fora collaboration, which represents a steady year-on-year increase.
 - Potential collaboration is being identified with other SCE sub-fora as well as with the sub-fora of the Economic Committee and the Committee on Trade and Investment.
 - The range of potential collaboration partners for each forum also appears fairly diverse, and often differs from project to project. Put another way, collaboration does not appear confined to the same or the more obvious partners.
 - A number of SCE sub-fora identify potential collaboration with external partners, including international and regional organisations such as the United Nations, World Bank, INTERPOL, International Energy Agency, ILO, WHO and OECD, or non-governmental organisations such as the Association of Pacific Rim Universities, Transparency International and The Nature Conservancy, to name but a few.

- Although the number and range of cross-fora collaboration opportunities appears to be increasing, work plans continue to include fairly modest details on the nature and extent of such collaboration.
- Although certain work plans have identified potential collaboration with ABAC and ASEAN, there likely is scope for more frequent collaboration with both entities, together with Pacific Islands Forum Secretariat, given their respective roles within the broader APEC process.

Discussion on how to promote cross-fora collaboration

6. At SCE3 in 2016, SCE members adopted eight recommendations to promote cross-fora collaboration (2016/SOM3/SCE/002):
 - a) *Make appropriate arrangements to facilitate more discussion on the cross-cutting issues and projects in the margins of the annual SCE-COW, including exploring possibilities of having themed discussions on specific cross-cutting areas under the lead of some fora convenors;*
 - b) *Request the APEC Secretariat to facilitate easier access to the annual work plans and other useful documents relevant for cross-cutting issues through centralized specific pages under ACS;*
 - c) *Create discussion boards on specific cross-cutting issues at the request of any SCE COW members on ACS and with the assistance from the APEC Secretariat;*
 - d) *Recommend the SOM to review the protocol on remote participation (2014/SOM2/035) with a view to enable APEC fora to easily utilize such IT facility as remote participation (i.e. Skype for Business) to engage with the other fora in certain circumstances;*
 - e) *Request the BMC Small Working Group to consider an approach to give further priorities to those cross-fora collaboration projects, which are of high priorities to APEC member economies, in the APEC funding approval process;*
 - f) *Encourage the CTI and EC representatives to participate in the SCE COW meeting and in other relevant occasions to discuss any cross-cutting issues in the margins of the SCE COW;*
 - g) *Encourage the fora to continue their efforts to coordinate across the fora through different avenues, including identifying specific areas for collaboration, holding multi-fora meetings or joint sessions in the margins of SOM meetings and using focal persons or Program Directors to coordinate with the other fora; and*
 - h) *Assess the fora on their efforts to collaborate or coordinate with the other fora, when the fora are subject to assessments.*
7. The SCE Chair and the Secretariat together with the SCE sub-fora have been implementing these recommendations since SCE3 of 2016. For instance, reforms have been introduced to the arrangements for the SCE-COW to facilitate the discussion of cross-fora issues and projects. In 2018, a thematic discussion focussed on key sub-fora deliverables and cross-fora opportunities is at the heart of the SCE-COW agenda. The Secretariat maintains all key documents of the SCE sub-fora (ie Terms of References, Strategic Plans, annual Work Plans and annual Fora Reports) on the APEC Collaboration System (ACS). Remote participation is being facilitated when requested, including in the context of 2018 SOM1 cluster meetings. Beginning in 2018, one of the criteria for scoring concept notes under the streamlined project approval process concerns cross-fora collaboration. The CTI and EC Chairs are routinely invited to attend the SCE-COW. We are witnessing an increasing number of joint or multi-group meetings during SOM clusters. The standardized fora assessment program to take effect in 2018 will measure data and indicators relating to cross-fora collaboration, among others.

8. In 2017, APEC Ministers welcomed the adoption of the *APEC Guidelines on Promoting Cross-Fora Collaboration*, which streamline existing best practices and highlight emerging issues in the view of encouraging more effective collaboration APEC-wide.
9. The one area which has witnessed modest progress is in the creation and use of discussion boards on the ACS to facilitate the exchange of information and inter-sessional discussions on cross-cutting issues. It is hoped that the increasing familiarisation with the ACS among sub-fora and member delegations will increase the prospects for its use toward this end.

Report of the APEC Secretariat Executive Director on the Alignment of Fora Work Plans with APEC's Overall Vision and Objectives

2018

Introduction

1. In line with the recommendations for *Strengthening Economic and Technical Cooperation in APEC* issued in 2010, the APEC Secretariat Executive Director provides an annual report on how SCE sub-fora work plans address APEC's overall vision and objectives.
2. The SCE sub-fora annual work plans are tabled at the annual SCE-Committee of the Whole Meeting (SCE-COW) seeking approval in accordance with the recommendations of the 2010 ECOTECH Report.
3. The 2018 alignment report considers how well the activities set out in the work plans align with the priorities established by Leaders and Ministers and the annual 2018 APEC priorities. The current report is rationalized somewhat from recent versions, with the charts contained in the Annex of recent reports not included. Among other reasons, the information contained in such charts, together with data and indicators on engagement, effectiveness, collaboration and alignment with APEC and ECOTECH priorities, will be collected and presented in a manner allowing for a more comprehensive picture to emerge through the reports generated by the standardized fora assessment program being implemented beginning in 2018. This report seeks therefore to avoid unnecessary duplication or confusion.
4. Recent versions of this report also summarised meeting attendance information including whether quorum of attendance by fourteen economies was being met. New governance requirements agreed by SOM in 2017 (2017/SOM2/002) contemplate rather specific steps being taken in the event quorum is not met by a sub-forum at two successive meetings irrespective of the year. It is therefore assumed that Senior Officials will consider more specific and timely reporting on quorum issues APEC-wide. Again, this report seeks to avoid unnecessary duplication or confusion.

Status of Work Plan Submission

5. The SCE Terms of Reference stipulate that Working Groups and Task Groups should submit their annual work plans three weeks prior to the annual SCE-COW on the margins of SCE1. The APEC Secretariat analysed fifteen (15) sub-fora work plans: ACTWG, ATCWG, CTWG, EGILAT, EPWG, EWG, HRDWG, MTF, OFWG, PPSTI, PPWE, TELWG and TWG submitted as of 1 March 2018 for approval at the SCE-COW; and draft work plans of HWG and SMEWG pending endorsement at the sub-fora level.
6. The work plans of GOFD and TPTWG were not submitted to the SCE-COW as they were not endorsed by the respective sub-forums.
7. The SCE sub-fora are asked to develop their work plans in accordance with a template approved at SCE2 in 2016. In 2017, guidance was added to the template to encourage identification of gender-related initiatives or aspects thereof.
8. The Secretariat conducted an analysis of the work plans and came to the following general conclusions:

Alignment of Work Plans with Broader APEC Objectives

- Most SCE sub-fora focused their activities to respond to the mandates given to them by the Leaders and Ministers. Many sub-fora, such as ACTWG, CTWG, EGILAT, EPWG, EWG,

HRDWG, HWG, OFWG, PPWE, SMEWG and TWG, specifically cite recent instructions of Ministers.

- A number of these also refer to 2018 APEC priorities. It is noted, however, that some work plans may have been developed before the 2018 APEC priorities were widely circulated.
- All work plans also make linkages between their specific activities and the relevant ECOTECH Medium Term Priorities, which is facilitated by the new template.

Planning Elements (Cross-fora collaboration, Capacity Building and Expected Deliverables)

- All submitted work plans identify some degree of collaboration with other sub-fora on cross-cutting topics. The Secretariat presents its analysis in a separate paper.
- Most initiatives and projects have been identified as capacity building, which is in keeping with ECOTECH priorities.
- A number of the work plans responded to the work plan guidance seeking identification of gender-related initiatives or aspect thereof.
- Sub-fora work plans could do a better job of focusing on deliverables, or outputs and outcomes, which advance APEC priorities, rather than on activities and routine administrative issues.
- Reforms to the SCE-COW arrangements have aided a focus on concrete deliverables.

Secretariat Comment

9. A stronger emphasis on expected deliverables, or outputs and outcomes, in work plan preparation could aid Senior Officials in developing a qualitative understanding of work plan alignment.

Report by the Fora Assessment Team Meeting on Scheduling 2019 Fora Assessments

The Fora Assessment Team met on 16 August 2018. Understanding that there is intersessional work to continue as to the Fora Assessment Team's recommendations on the format of the standardized report template, time frame to be assessed, the Team has come to an agreement on the sub-fora to be assessed in 2019. They are as follows:

Proposed Fora to be Assessed 2019	Date of Last Assessment	Expiration of Terms of Reference
Experts Group on Illegal Logging & Associated Trade	2013	2021
Mining Task Force #	2014	2018
Tourism Working Group	2014	2021
Emergency Preparedness Working Group	2015	2021
Health Working Group	2015	2021
Oceans and Fisheries Working Group	2015	2021
Policy Partnership on Science and Technology Innovation	2015	2021
Small and Medium Enterprises Working Group +	2015	2021

** Mining Task Force's mandate expires at the end of 2018.

+ Should the Mining Task Force mandate not be extended it will not be assessed, instead Small Medium Enterprises Working Group will be assessed in 2019.

In addition, the Fora Assessment Team recommended that the following fora should be assessed in 2020:

Proposed Fora to be Assessed 2020	Date of Last Assessment	Expiration of Terms of Reference
Small and Medium Enterprises Working Group +	2015	2021
Agricultural Technology Cooperation Working Group	2016	2021

Anti-Corruption and Transparency Working Group	2016	2021
Policy Partnership for Women in the Economy	2016	2021
Telecommunications and Information Working Group	2016	2021
Transportation Working Group (TPTWG) *	2013	2021

+ Small and Medium Enterprises Working Group is included on the 2020 schedule if it is not assessed in 2019 as discussed above.

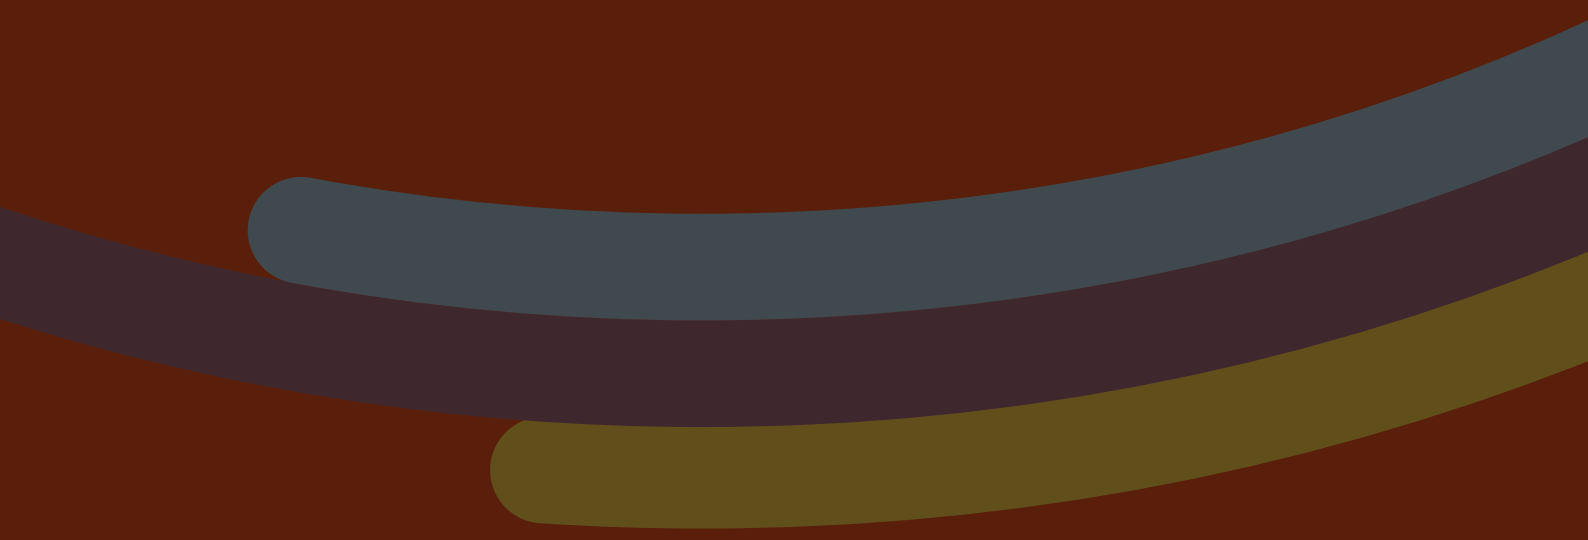

* Transportation Working Group experienced a major reorganization in 2017. The Secretariat Program recommends another year of operation with the new structure prior to assessment. This will also allow the reorganized TPTWG to move through one complete project cycle prior to assessment.
